

County of Lake

DIVISION OF WATER OPERATIONS
38270 AQUARIUS PKWY
WILLOUGHBY, OH 44094

June 27, 2016

Dear Resident:

The Lake County Department of Utilities is issuing a **boil alert** due to a water main repair on River Road in Willoughby Hills from approximately 8:30 am to 2:30 pm on Wednesday, June 29, 2016. Due to this repair, your residence will temporarily be without water service. The streets that will be affected are:

- **River Road from Skyline Drive to Hayes Drive**
- **Chardon Road from River Rd east to the Willoughby Hills line**
- **Worrell Road and Rodgers Road**
- **All streets off of those mentioned above will also be included in the boil alert**

A water use advisory will be in effect until the bacteriological tests confirm the water is safe to consume. This may take several days. Until that time, residents are advised to take the following extra precautionary measures:

Water for drinking and cooking purposes should be boiled (at running boil) for at least 1 minute.

Please visit our website at <http://www.lakecountyohio.gov/utilities/> regarding the status of the boil alert.

For any further questions, please call Lake County Department of Utilities Aquarius Water Treatment Plant at 440-918-3420. Your patience is appreciated during this process.

Sincerely,

Jim Berg
Distribution Superintendent
